

Nursery moving into Geschäftszentrum Mariendorfer Damm

Berlin, 12th April 2022 – HGHI has won over the nursery Kita Benjamin Blume as tenant for the project Geschäftszentrum Mariendorfer Damm in the district Berlin-Mariendorf (Mariendorfer Damm 292-298, 12107 Berlin), which was completed in June 2020. The nursery will have at its disposal around 490 sqm of interior space on the first floor of the building and additional 530 sqm of outdoor space. The handover of the rental space is planned for the middle of the year 2022. It will be the third location to be opened by the nursery in Berlin.

“The lack of childcare places in Berlin is dramatic. This is particularly why we are cordially welcoming our new tenant, nursery Kita Blume. Soon, around 68 children are going to have a modern and comfortable nursery place surrounded by a green environment. We are more than happy that we are able to fulfill a significant and social role with our future-oriented project development in Berlin-Mariendorf”, says Harald Gerome Huth, owner and Managing Director of HGHI Holding GmbH.

On a total area of 24.000 sqm in the popular district of Berlin Tempelhof-Schöneberg (Mariendorf) HGHI Holding GmbH has modernised and extended an existing retail center right next to the horse racecourse (Trabrennbahn) into an attractive business center, combining retail and office space. Completed in the second quarter of 2020, the ground floor of the HGHI project Geschäftszentrum Mariendorfer Damm comprises 7.000 sqm with varied use concepts including retail, service and restaurants. A total of 9.000 sqm of office space is located on the upper floors 1-3 of the building. A special highlight of the office area is the green rooftop garden in the first floor, which serves as an attractive reception for guests as well as a relaxation oasis for the office tenants.

Due to its numerous green areas the quiet district of Mariendorf in the south of Berlin is a much sought-after residential and office area. In addition to also having an excellent infrastructural connection to the transport network of Berlin: the motorway A10 (southern Berlin Ring) can be reached via the B96 (Bundesstraße), as well as the motorway A100 (Stadtautobahn) located in the north. Potsdamer Platz or Berlin central station can quickly be reached in only 30 minutes driving. Numerous car parking spaces are located in close proximity to the building. Furthermore, the business center is optimally connected to the public transport. Several bus lines have their stop right in front of the building and the metro station Alt-Mariendorf as well as the railway station Marienfelde are located within the immediate vicinity. The revitalisation and the development of the retail center contributes to a significant enhancement of the attractiveness of the entire district.
